Operating profit	**66% margin**	**$34,705**

518 members
Break-even, or 8.6% sign-up to paid

$4.40
CAC, marketing ÷ paid members

What users pay elsewhere

$0 Facebook, RedNote

$29 SummerNest

$199/yr Furnished Finder

~$700 Airbnb host fee, 3 months

Sources: 2023 to 2025 enrollment reports (UW, Northeastern, UCLA, USC, SF State, USF, UC Berkeley, Stanford, NYU, Columbia); NACE 2024 Student Survey; Stripe and Stripe Identity pricing; Furnished Finder; Airbnb. EST. = team estimate.

XIAOYU WANG & AURORA OUYANG

Riskiest Assumptions

RANKED BY impact on the P&L × how little evidence we have

1 · WILLINGNESS TO PAY

Interns will pay $29 when Facebook and RedNote are free

Assumed: **30%** of sign-ups pay

30% pay	+$34,700
15% pay	+$10,400
8.6% pay, break-even	**$0**
5% pay	−$5,800

- Biggest driver of revenue and profit
- No evidence yet, and every alternative is free
- Kopa, a verified medium-term housing marketplace, has shut down

TEST Landing page with a "reserve your pass" button

2 · LIQUIDITY

Each city has enough rooms for the right dates

Assumed: **40%** of members both list and rent

- A member with no match gets no value, asks for a refund, and won't recommend us
- A student leaving City A lists their room there, so supply should grow with demand. Untested.
- Cold start in 4 cities at once

TEST Survey launch schools: where do you go, and will you sublet your room?

3 · CHEAP REACH

We can reach relocating interns in a 4-month window

Assumed: **15%** sign up, **$4.40** CAC

- Users need us once or twice in college, so lifetime value is about one $29 pass
- One search season per year: a failed channel costs a full year

TEST One ambassador at one school for 4 weeks, sign-ups per dollar
